A Unique & Powerful Scientifically balanced Tonic for Vigor, Vitality , Faster & Healthy Growth.

# GROWBEST™ PET

Highly Palatable Scientifically balanced formula of 18 Essential Amino Acids & 12 Essential Vitamins

**Biscuit Flavour**

## Benefits :

Non antibiotic advanced nutritional tonic for good health & complete growth. Can be used in all physiological condition & all age group throughout year. General supplement to maintain vital body function. Improves productivity by optimizing FCR, growth & weight gain. Increases body immunity power to fight infections. For shiny, lustrous & healthy skin. To enhance general activity. Provides vital elements like Amino Acids & Multivitamins during stress condition like Deworming, Transportation, Diet Change, Season Change, Fast Growth, Pregnancy, Peak Lactation, Debility and Convalescence. A real supplement for Vigor , Vitality & Growth.

## Advantage :

- Unique non anti biotic growth promoter.
- **Essential Amino Acids:** Rapid growth, muscle development, fat burning, better immune health, cardiovascular health.
- **Essential Vitamins:** Regulate all important body functions, keep the body healthy & promoting resistance to diseases.

## Composition :

Each 100 ml Provides:

Vitamin A	: 1000,000 IU.
Vitamin D3	: 200000IU.
Vitamin B1	: 350 mg
Vitamin B6	: 200 mg.
Vitamin B12	: 2000 mg
Vitamin E	: 800 mg.
Vitamin C	: 500 mg
Choline Chloride	: 400 mg.
De Pantothenol	: 1500 mg.
Folic acid	: 10 mg.
Biotin	: 250 mcg
Inositol	: 200 mcg
Niacinamide	: 1.25 mg.
L-Methionine	: 500mg.
L-Lysine	: 250 mg.
Threonine	: 50 mg
L-Tryptophan	: 10 mg.
Histidine	: 90 mg
Arginine	: 49 mg
Aspartic Acid	: 145 mg
Serine	: 68 mg
Glutamic Acid	: 116 mg
Proline	: 51 mg
Glycine	: 50 mg
Alanine	: 90 mg
Cystine	: 15 mg
Valine	: 110mg
Leucine	: 150mg
Isoleucine	: 12mg
Tyrosine	: 30mg
Phynylanine	: 80 mg

## ESSENTIAL 12 VITAMINS & ESSENTIAL 18 AMINO ACIDS

## Dosage & Administration:

Puppies : 5 ml twice daily  
 Adult Dogs : 10 ml twice daily.  
 Cats : 2.5 ml to 5 ml twice daily  
 Pet Birds : 15 to 20 ml per 100 Birds.

Get armed with immunity.... Unique Immunity Booster

# IMMUNE™ PET

Unique Immunomodulator with Essential  
Immune Boosting Amino Acid,  
Multivitamin & Multimineral Syrup

*Meat Flavour*

## Benefits :

Optimise vaccination response by enhancing the anti body titer with different vaccines such as Canine Distemper, Parvo Virus, Canine Hepatitis, Anti- Rabies, Feline Leukemia, Feline Panleukopenia etc. . Potentiate the antibiotic therapy and to help avoid recurrence of infections & secondary infections. Optimise immune status & improves general resistance. Maintain immune-status with unavoidable use of corticosteroids in conditions such as arthritis, allergic respiratory and skin conditions. Co treatment & follow up with corticosteroids, anti neoplastic therapy, gastro enteritis & vomiting. Hastens recovery as part of the programme designed to aid recovery from major surgery, burn injury , multiple trauma or as an adjuvant to enhance the effectiveness of microbial therapy in dermal, ocular, otic & other recurrent chronic infections. To optimise the non-specific resistance and host defense. Maintain homeostasis. Reduces vaccination failures & disease incidence.

## Dosage & Administration:

**Puppies** : 5 ml twice daily  
**Adult Dogs** : 10 ml twice daily.  
**Cats** : 2.5 ml to 5 ml twice daily  
**Pet Birds** : 15 to 20 ml per 100 Birds.  
or as directed by Veterinarian.

## Presentation :

200 ml

## Composition :

Each 10 ml Provides:

Glycine	: 100 mg
Vitamin E	: 35 mg,
Selenium	: 8.5 ppm
Vitamin C	: 40 mg
Sodium Chloride	: 25 mg
Potassium Chloride	: 25 mg
Manganese Sulphate	: 7.5 mg,
Magnesium Sulphate	: 7.5 Mg
Zinc Sulphate	: 10 mg
Amino Nitrogen	: 10000 ppm
Vitamin B12	: 5 mcg

Fortified with immunoactive

Polysaccharides in flavoured Syrup base.

## Added Advantage :

Fortified with Amino Nitrogen.

Only Ideal Haematinic, Hepatoprotective, Appetite Stimulant Syrup.

# IRO-LIV™ PET

*Meat Flavour*

## Benefits :

Cures nutritional anemia, anemia of chronic hemorrhage, anemia at the time of pregnancy & lactation. Improves Liver Function. Stimulate Appetite. Management of hepatitis. Beneficial during general debility/convalescence. Improves metabolism, FCR & weight gain.

**Added Advance :** Fortified with Liver Extract, Enzymes & Biotin

## Dosage & Administration:

**Puppies** : 5 ml twice daily

**Adult Dogs** : 10 ml twice daily.

**Cats** : 2.5 ml to 5 ml twice daily

**Pet Birds** : 15 to 20 ml per 100 Birds.

or as directed by Veterinarian.

## Composition :

Each 30 ml Provides:

Ferrous Gluconate	: 200 mg
Ferrous Chloride	: 100 mg
Thiamin (Vitamin B1)	: 5 mg
Riboflavin (Vitamin B2)	: 5 mg
Folic Acid	: 20 Mg
Copper Sulphate	: 25 mg
Cobalt Chloride	: 5 mg
Zinc	: 50 mg
Biotin	: 50 mcg
Nicotinamide	: 45 mg
Nicotinic Acid	: 20mg
Calcium Lactate	: 300mg
Liver Fraction	: 150 mg

(Derived from 3.75 gm of Fresh Liver)

# Kalshine™ Gold Pet

**Highly Palatable Calcium, Phosphorus Supplement  
with Vitamin D3, B12, Magnesium,  
Sodium & Iodine Suspension**

**Meat Flavour**

## **Benefits :**

Kalshine Gold Pet is a palatable nutritional supplement for all types of breed & age groups. Supports consistent growth of skeletal system especially bone & teeth development in Junior pets. Highly recommended during scaled up nutritional demand for Pregnant, Nursing bitches and complete lactation phase as it helps in remineralisation of bone. Helps fracture healing. For prevention of osteoporosis, osteomalacia & rickets. Supports growth & helps to maintain good muscular growth & over all good health.

## **Added Advantage :**

Fortified with Antioxidant **Lycopene & Lutein**

**LYCOPENE:** Lycopene is an antioxidant that is present in red- and pink-colored fruits and vegetables. It has been shown benefit to maintain improved heart health, blood pressure, prostate, osteoporosis, skin and other benefits in both natural and synthetic forms.

**LUTEIN:** Lutein is called a carotenoid vitamin. It is related to beta-carotene and vitamin A. Foods rich in lutein include broccoli, spinach, corn, pepper, kiwi fruit, grapes, orange juice and squash. Many people think of lutein as "the eye vitamin." They use it to prevent eye diseases including age-related muscular degeneration (AMD), cataracts, and retinitis pigmentosa. It is also used for preventing colon cancer, breast cancer, type 2 diabetes, and heart disease.

## **Dosage & Administration :**

- Puppies** : 5 ml twice daily
- Adult Dogs** : 10 ml twice daily.
- Cats** : 2.5 ml to 5 ml twice daily
- Pet Birds** : 15 to 20 ml per 100 Birds.  
or as directed by Veterinarian.

## **Presentation :**

**200 ml**

## **Composition :**

Each 20 ml Provides:

Calcium	:	600 mg
Phosphorus	:	300 mg
Vitamin D3	:	1600 IU
Vitamin B12	:	20 mcg
Vitamin B6	:	5 mg
Magnesium	:	20 mg
Sodium	:	16 mg
Iodine	:	200 mcg
Iron	:	10mg
Lycopene	:	5 mg,
Lutein	:	6 mg,

In a Flavoured Sorbitol Suspension base.

The Real Answer For All Type Of Digestive Disorder

# Zymoliv<sup>TM</sup> Gold Pet

A Unique Digestive Booster with Enzymes,  
Liver Extract, Essential Amino Acid & Multivitamin Syrup  
*Meat Flavour*

## Benefits :

Corrects indigestion, anorexia & other digestive disorders.  
Improves digestion. Improves & increases appetite.  
Accelerate digestive process. Improve metabolism, F.C.R & helps in weight gain. Supplementary treatment of Aflatoxicosis, Mycotoxicosis , Fatty Liver & Kidney syndrome.

## Added Advantage :

Fortified with Silymarine

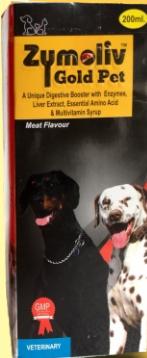

SYLIMARINE: The high prevalence of liver diseases such as chronic hepatitis and cirrhosis underscores the need for efficient and cost-effective treatments. The potential benefit of silymarin (extracted from the seeds of Silybum marianum or milk thistle) in the treatment of liver diseases. Silymarine promotes skin health.,Reduces cholesterol, Supports weight loss,Reduces insulin resistance, Improves allergic asthma symptoms. , Limits the spread of cancer, Supports bone health. Silymarin gives a very good result in the treatment of Non-Alcoholic Fatty Liver Disease (NAFLD). High dose & long term therapy of Silymarin will be able to reduce steatohepatitis (fat-related liver inflammation).

## Dosage & Administration:

**Puppies** : 5 ml twice daily  
**Adult Dogs** : 10 ml twice daily.  
**Cats** : 2.5 ml to 5 ml twice daily  
**Pet Birds** : 15 to 20 ml per 100 Birds.  
 Or as directed by Veterinarian.

## Presentation :

200 ml

## Composition :

Each 10 ml Provides:	
Liver Fraction	: 750 mg
(Soluble Liver fraction from 16.25 gm of fresh Liver)	
with Vitamin B12 activity equivalent to 5 mcg	
Thiamine (Vitamin B1)	: 20 mg
Riboflavin (Vitamin B2)	: 20 mg
Pyridoxine HCL IP (Vitamin B6)	: 2 mg
Nicotinamide IP	: 60 mg
Lysin Hydrochloride	: 100 mg
DL Mytheonine	: 50 mg
L-Tryptophan	: 50 mg
Biotin	: 100 mg
Choline Chloride	: 100 mg
Diastase IP (1:1200) (Fungal Diastase derived from Aspergillus Oryzae)	: 100 mg
Pepsine IP (1:3000)	: 40 mg
Silymarin

# SAFETYVET™

## Injection

MOST TRUSTED ANTI INFECTIVE

### Composition :

Each vial contains:

Ceftriaxone Sodium :

125 mg / 250 mg / 500 mg

### Indication :

Gastrointestinal tract, Respiratory tract, Genital tract, Urinary tract, Skin, Wound, Joint, Bone & Soft Tissue Infections. Septicemia, Bacteraemia & as a general antibiotic when broad spectrum activity is required.

### Advantage :

- Broad spectrum antibiotic
- Quick onset of action
- Well tolerated

### Dosage & Administration :

10mg to 20mg per kg Body weight by IV/IM route for 3 to 5 days or as advised by Veterinarian

### Presentation :

125 mg, 250 mg & 500 mg

# SAFETY <sup>TM</sup> Vet Plus

## Injection

**MOST TRUSTED & MOST  
POWERFUL ANTI INFECTIVE**

**Composition :** Each vial contains

Ceftriaxone Sodium	250 mg	500 mg
Tazobactum Sodium	31.25 mg	62.50 mg

**Indication :**

Gastrointestinal tract ,Respiratory tract (Pneumonia, Bronchitis), Uro-Genital tract ( Metritis, Endometritis, Pyometra), Skin & Soft tissue (Abscess, Surgical Wound, Maggoted wound), Joint & Bone Infections. Septicemia, Bacteraemia ,Pre operative prophylaxis & post operative treatment & disease of unknown etiology when broad spectrum activity is required.

**Advantage :**

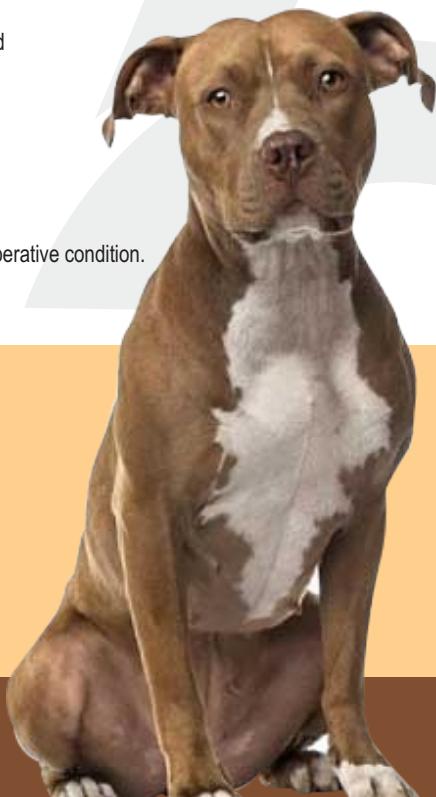

- Unique combination of Ceftriaxone & Tazobactum
- Mega spectrum antibiotic
- Quick onset of action
- Also effective in presence of puses, so better result in post operative condition.
- Well tolerated
- Resistance not yet reported

**Dosage & Administration :**

10mg to 20mg per kg Body weight by IV/IM route for 3 to 5 days or as advised by Veterinarian.

## **Internationally Reputed Inactivated Vaccine against Rabies Virus for Canine & Feline**

# **BIOCAN R**

### **Method of administration:**

- Subcutaneously, preferably behind the shoulder blade.
- Intramuscularly, preferably to the muscles of the pelvic limb.

The animals are vaccinated from the age of 3 months. Protective immunity starts 14 days after immunization. The animals vaccinated before the age of 3 months must be re-vaccinated after they accomplish this age (the minimum interval of 14 days between two vaccinations must be respected). The animals first vaccinated at the age of 3 to 12 months must be re-vaccinated one year after the first application of the vaccine. The re-vaccination performed one year after the first vaccination shall protect the animals from rabies for a minimum period of one year.

### **Dosage & Administration :**

The dose is 1 ml, regardless of age, weight and race of the individual. To be applied from the 12th week of age or as advised by Veterinarian

The vaccine Biocan R may be used separately, simultaneously or in combination with other Biocan vaccines.

### **Presentation :**

Biocan R 1 ml - 20 x 1 Dose  
Biocan R 10 ml - 10 x 1 Dose

### **Composition :**

Each ml. contains  
Inactivated Rabies Virus, strain SAD  
Vnukovo-32 - min.2 IU

### **Indication :**

For the active immunization of  
Dogs & Cats against Rabies Virus.
